	Gunn Robotics Team	2014 - 2016	www.gunnrobotics.com
I was an active member of my school's student-run FIRST robotics team for two years, and a member of the team's control systems group for one year. I machined aluminum and plastic parts on a variety of shop tools; for the controls team, I wrote python code to access several sensors and to control several mechanisms on the robot. I also wrote content for our team's website and business plan and have experience with CAD and basic electrical engineering.			
	Ecole Nationale du Cirque	2010 - 2012	ecolenationaledecirque.ca/en
I was accepted at the prestigious "National Circus School" in Montreal, Canada for three consecutive summers. While at the school I improved my skills in hand balancing, unicycling, and learned the German Wheel, Silks, and other disciplines of circus arts.			
	Graphic Arts, Stanford Open	2011 - 2015	egvincent.com/stanford-open
For 5 consecutive years, I designed the T-shirt and logo for the "Stanford Open," an annual three-day gymnastics competition my gym hosts for over 800 gymnasts and their families.
