|                   |  |            |                |               |
|-------------------|--|------------|----------------|---------------|
| <b>Experience</b> | <b><u>Microsoft Azure Media Services</u></b>   | SWE Intern | Summer of 2018 | Redmond, WA   |
|                   | Media Services provides enterprise video encoding, streaming, analytics, and more. <ul style="list-style-type: none"><li>• Improved security token validation (prior to key/license delivery) by adding new options for limited reuse tokens and a DRM-independent active device limit</li><li>• Used: C# with JWT &amp; SWT tokens</li></ul>  |            |                |               |
|                   | <b><u>DeepMap</u></b>  | SWE Intern | Summer of 2017 | Palo Alto, CA |
|                   | DeepMap provides high definition 3D mapping as a service for self-driving cars. <ul style="list-style-type: none"><li>• Built systems for robust ground and car detection in sparse LiDAR point clouds</li><li>• Built systems for object tracking and velocity estimation across multiple point clouds</li><li>• Used: C++</li></ul>  |            |                |               |
|                   | <b><u>Savioke</u></b>  | SWE Intern | Summer of 2016 | San Jose, CA  |
|                   | Savioke builds the Relay, an autonomous, user-friendly room service robot for hotels. <ul style="list-style-type: none"><li>• Enabled Relay robot to call external APIs</li><li>• Connected Relay to Amazon Alexa and the Amazon IOT Button</li><li>• Explored new interactive uses for Relay by extending a visual robot scripting interface.</li><li>• Used: AWS, JavaScript with MeteorJS and ROS, Google Blockly</li></ul> |            |                |               |
|                   | <b><u>Metanautix</u></b> (acquired by Microsoft)   | SWE Intern | Summer of 2015 | Palo Alto, CA |
|                   | Enterprise software company focused on big data management, analytics, and visualization. <ul style="list-style-type: none"><li>• Worked as a front-end web developer on their multi-database query tool, Quest</li><li>• Used: AngularJS and Bootstrap</li></ul>  |            |                |               |
|                   | <b><u>Camio</u></b>  | SWE Intern | Summer of 2014 | San Mateo, CA |
|                   | Smart, cloud-based video monitoring and analytics for the home. <ul style="list-style-type: none"><li>• Built a system to automatically graph core company metrics</li><li>• Used: JavaScript and Google BigQuery with SQL</li></ul>   |            |                |               |

|                   |  |             |  |
|-------------------|--|-------------|--|
| <b>Activities</b> | <b>Competitive Gymnastics</b>  | 2007 - 2016 | Stanford Boys Gymnastics,<br>San Mateo Gymnastics                              |
|                   | I was a competitive gymnast for nine years. I practiced ~20 hours per week year round. I was team captain from 2015 to 2016.   |             |  |
|                   | <i>Highlights:</i>   |             |  |
|                   | Level 10 (2016) – JO Nationals: 5 <sup>th</sup> place and all around finals. Regionals: 6 <sup>th</sup> place and all-star team. States: 2 <sup>nd</sup> place and all-star team.  |             |  |
|                   | Level 9 (2011-2013) – JO Nationals all three years, event finals on floor and pommel horse   |             |  |
|                   | Level 6 (2009) – 4 <sup>th</sup> place at State Championships, 1 <sup>st</sup> place at Regional Championships.  |             |  |
|                   | <b>Gunn Robotics Team</b>  | 2014 - 2016 | <a href="http://www.gunnrobotics.com">www.gunnrobotics.com</a>                 |
|                   | I was a member of my school's student-run FIRST robotics team for two years, and a member of the team's control systems group for one year. I have experience machining on a mill, lathe, drill press, band saw, and many other shop tools. In the controls group, I wrote python code to access several sensors and to control several mechanisms on the robot. I was an active member, and contributed upwards of 10 hours per week in addition to attending the competitions, helping our team win the FRC Team Spirit Award last year. In addition to coding and machining, I have written content for our team's website and business plan and have experience with CAD and basic electrical engineering. |             |  |
|                   | <b>Ecole Nationale du Cirque</b>   | 2010 - 2012 | <a href="http://ecolenationaledecirque.ca/en">ecolenationaledecirque.ca/en</a> |
|                   | I was accepted at the prestigious "National Circus School" in Montreal, Canada for three consecutive summers. While at the school I improved my skills in hand balancing, unicycling, and learned the German Wheel, Silks, and other disciplines of circus arts.   |             |  |
|                   | <b>Graphic Arts, Stanford Open</b>   | 2011 - 2015 | <a href="http://egvincent.com/stanford-open">egvincent.com/stanford-open</a>   |
|                   | For 5 consecutive years, I designed the T-shirt and logo for the "Stanford Open," an annual three-day gymnastics competition my gym hosts for over 800 gymnasts and their families.  |             |  |

---

## Programming Skills

**Core:** proficient in C++ and experienced with Java and C#; wrote clean and efficient C++ code in four separate Stanford courses and a summer software engineering internship

**Web development:** HTML, CSS, JavaScript, Bootstrap, AngularJS, MeteorJS, HTTP(S)

**Scripting:** Python, Bash

Comfortable with Git (and in conjunction with GitHub, Gerrit, or CodeFlow)
