**Gunn Robotics Team**

2014 - 2016

[www.gunnrobotics.com](http://www.gunnrobotics.com)

I was a member of my school's student-run FIRST robotics team for two years, and a member of the team's control systems group for one year. I have experience machining on a mill, lathe, drill press, band saw, and many other shop tools. In the controls group, I wrote python code to access several sensors and to control several mechanisms on the robot. I was an active member, and contributed upwards of 10 hours per week in addition to attending the competitions, helping our team win the FRC Team Spirit Award last year. In addition to coding and machining, I have written content for our team's website and business plan and have experience with CAD and basic electrical engineering.
